THE TEXTLIGHT

Cellular Monitoring Solution

Why would you buy an ordinary alarm light when there is no one there to see it?

WWW.PUMPALARM.COM

ABOUT US

The mission of PumpAlarm.com is to be the first to responsibly inform homeowners and contractors the importance of monitoring and maintaining healthy machinery, from residential sump pumps to wastewater treatment plants.

WHY PUMPALARM.COM

Our highly experienced customer support team has been providing high-quality machinery monitoring care for over 20 years.

OUR SERVICES

Our service stretches across the United States, we offer a money-back guarantee on service in the lower 48 states and Hawaii.

1 year, bumper-to-bumper warranty, if anything on your 4G device goes wrong we will make it right

Free phone and email support. From presales to technical and billing questions, we've got you covered. We also provide free e-learning courses and knowledge base.

WHAT TO MONITOR

The TextLight can monitor many different applications, such as electrical control panels, portable equipment, alert AC power loss, and more!

*cellular service subscription required for all devices

Irrigation

Electrical Control Panel

Air Release Valve

Manhole

Septic Tank

Wastewater Treatment Plant

Designed and built in the USA, the TextLight is made for indoor use as well as outdoors during the harshest of weather conditions. Completely configured using any cell phone, simply text commands to the TextLight, and it will monitor your control panel 24/7. Sends messages up to 3 mobile devices.
