## PUMPALARM

Effortless Sump Pump Monitoring:  
Track, Alert, and Protect Wirelessly!

**PUMPALARM.COM**

# SOLUTION

Isn't your property worth protecting? Don't let water damage cost you thousands of dollars! Helping you prevent costly damage before it happens.

The mission of Pumpalarm.com is to be the first to responsibly inform homeowners what a sump pump is, and about the importance of maintaining a healthy sump pump...your last line of defense for keeping your basement dry.

The only cellular sump pump monitor on the market! Use the PumpAlarm anywhere you need to know when there's a power loss or change of temperature.

Even if you're away from home, the PumpAlarm gives you enough notice to inform your plumber, neighbor, or friend to investigate and take action before damages become irreparable.

The PumpAlarm gives you an early notification warning that your pump has failed so that you can prevent a basement flood. Let PumpAlarm.com be your 24/7 watchdog for your critical pumping system.

# WHAT TO MONITOR

The PumpAlarm can detect many different issues, such as basement flooding, temperature monitoring, heating system failure, and water detection/level monitoring.

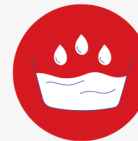

\*cellular service subscription required for all devices

Homes

Sump Pits & Sump Pumps

Water Tanks

Server Room

Furnace

RV

Quick detection and reliable connection help send alerts in real-time. When using Wi-Fi monitors and your power goes out, so does your Wi-Fi alarm. With cellular, the PumpAlarm works through a power outage!
