

PRODUCT COMPARISON

The New 4G PumpAlarm

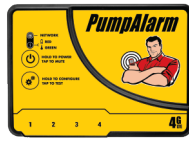

Aside from being a 4G device, the new 4G PumpAlarm has feature upgrades like the option to add an antenna extension if your PumpAlarm is in a low-signal area.

DriBot® Home Flood Prevention Appliance

A brand new, comprehensive product from the same team that has given you PumpAlarm, DriBot® is a revolutionary replacement product for a home sump pump. Designed based on customer feedback, DriBot® is for homeowners looking for a more comprehensive, all-in-one solution to preventing their home from flooding.

LEVEL OF PROTECTION AGAINST HOME WATER DAMAGE	Can notify you of a problem but cannot take action	Can notify you of a problem AND take action
